

Eagle Forum supports U.S. Constitution

We **support** the sanctity of human life as a gift from our Creator, as proclaimed in the Declaration of Independence.

We **oppose** all efforts to call a new Constitutional Convention. We support congressional action to curb the imperial judiciary by refusing to confirm activist judges and by withdrawing jurisdiction from the federal courts over areas where we cannot trust them, such as the Pledge of Allegiance, the Ten Commandments, and the definition of marriage.

We **support** the right of individuals to keep and bear arms, as guaranteed in the Second Amendment.

We **support** making elections honest by requiring picture ID and cleaning up registration rolls.

Eagle Forum supports America

We **oppose** all encroachments against American sovereignty through U.N. treaties or conferences that try to impose energy restrictions, trade regulations, global taxes, gun registration, or feminist goals.

We **support** U.S. military superiority as the best key to national security and world peace.

We **support** making English our official language.

We **support** immediate border security to stop the entry of illegal aliens, illegal drugs, women seeking to give birth to “anchor babies,” Third World diseases, criminal gangs, and potential terrorists.

We **oppose** amnesty and guest-worker visas. We should assimilate the legal foreign-born residents.

We **support** lower income taxes on married couples with children.

We **support** the private enterprise system and reject tax-and-spend government or a global economy.

We **support** foreign trade agreements only with a level playing field for U.S. workers and products.

We **support** putting control of health care spending in the hands of individuals by making health insurance tax-deductible for all persons.

Eagle Forum opposes Feminist Goals

We **support** constitutional amendments and legislation to protect the institution of marriage and the important roles of father and mother. We honor the fulltime homemaker and her rights in social security and the joint income tax.

We **oppose** government-financed incentives that result in fatherless children, divorce, illegitimacy, and stereotyping men as abusers of women.

We **oppose** same-sex marriages, tax-funded abortions and drafting our daughters into military combat.

We **oppose** the concept that the “village” (the government) should raise the child. We oppose public schools overriding parents on moral issues.

Eagle Forum supports Real Education

We **support** every child being able to read using phonics by the end of the first grade. We support parents teaching their own children to read before they enter school.

We **support** teaching schoolchildren accurate American history and that we are a land of freedom and opportunity. We oppose teaching schoolchildren that America is an unjust nation and they should conform to leftwing goals of diversity, multiculturalism, political correctness, and globalism.

We **support** fathers’ and mothers’ rights to guide the education of their own children and to homeschool without oppressive government regulations.

We **oppose** the Common Core standards and national control of testing or curriculum. We oppose data-mining school children.

We **oppose** the feminist goal of taxpayer financed and regulated daycare and pre-kindergarten.

Join Eagle Forum so you will have a strong voice at the U.S. Capitol and at State Capitols.

Phyllis Schlafly
1924-2016

Eagle Forum was founded by Phyllis Schlafly and a dedicated group of volunteers. Phyllis Schlafly was a dynamic and charismatic leader who inspired countless women and men to speak up and speak out. For nearly fifty years, Eagle Forum's network of state organizations has led the charge to mobilize the grassroots to defend the founding principles of the United States. Please join us to protect our rights!

Eagle Forum successfully led the ten-year battle to defeat the misnamed Equal Rights Amendment with its hidden agenda of same-sex marriages and tax-funded abortions. Eagle Forum was a primary factor in passing the Protection of Pupil Rights Amendment, which protects children against psychological testing and screening without parental consent.
