

EUNIE SMITH
PRESIDENT

EAGLE FORUM

Leading the Pro-Family Movement since 1972

HEADQUARTERS: 200 W. Third Street, Suite 502, Alton, IL 62002, (618) 433-8990, eagle@eagleforum.org

May 2017

Dear President Trump,

On behalf of Eagle Forum and the thousands of families we represent throughout the country, thank you for your campaign promise to remove the United States from the United Nations' Paris Agreement. Stopping the U.N. mischief was a high priority for our beloved founder Phyllis Schlafly — so much so that Phyllis appointed a Chairman to attend nearly every U.N. climate change meeting since 1997 to report to our activists and lead our efforts to oppose the damaging globalist agenda. Thus, we respectfully urge you to keep your promise and withdraw the United States from the Paris Agreement.

The “climate change” agenda emanating from the United Nations, is clearly an attack on American workers, their jobs and our standard of living.

The “climate change” treaty was created in 1992 at a United Nations meeting in Rio de Janeiro. In attendance was former Senator and Secretary of State John Kerry, who met his future wife during that meeting. With his wife's funding help, Kerry then began to network with universities to push the radical environmental ideas into American education. Secretary Kerry worked especially hard throughout the 2015 United Nations meeting in Paris to subject America to the radical environmental agenda that centers on the notion that man somehow has the “power” to change the climate, which has never been proven scientifically.

The United Nations' goal is to create a legal framework to avoid “human-caused” global warming, even though the earth has not warmed over the past 19 years. In Kyoto, nations agreed to reduce greenhouse gases (primarily carbon dioxide) by 5 percent below 1990 levels by 2008-2012, but the United States rightfully never ratified that treaty. The new Paris Accord ups the ante to a 32 percent reduction in greenhouse gases by 2030. The radical goal is to try to eliminate the use of all fossil fuels by 2050.

Eagle Forum has watched nations change their position concerning “climate change” from one of non-interest to their current position of seeing it as a “cash cow” for their economies. The anti-American U.N. meetings have promoted the claim that America is mostly to blame for “climate change” because of our industrial strength, which includes burning of fossil fuels. The true purpose of the U.N.'s “climate change” agenda is to redistribute wealth around the globe.

Radical environmentalists, including former Secretary Kerry and former Vice President Al Gore, have turned the ruse into a platform to enhance their own power and financial wealth.

Today, former President Obama is giving a speech on “climate change” in Milan, Italy. Obama's “Clean Power Plan” was the trophy he handed to the United Nations in 2015 committing America to the Paris Agreement. Obama's “fundamental transformation” of America is

the antithesis of your campaign promises, as these policies diminish the greatness of our nation overall and are particularly devastating to the “forgotten man” for whose interests we know you are committed to fighting.

We need your strong leadership. Please fulfill your campaign promise to remove the U.S. from the dangerous U.N. Paris Agreement. We are eager to do all that we can to support you in this course of action.

Blessings,

Cathie Adams
First Vice-President, Eagle Forum
International Issues Chairman

Carolee Adams,
President, Eagle Forum of New Jersey

Virginia Armstrong, Ph.D.
Eagle Forum Court Watch Chairman

Trayce Bradford
President, Texas Eagle Forum

Naomi Brummond
President, Nebraska Eagle Forum
