

Policy Conference

Saturday, 2/1/20

9:15 AM

Speaker: Erin Brewer, PhD – Erin developed gender dysphoria in first grade. She did everything she could to be a boy. She wasn't a tomboy in her mind, she was a boy. Her mother eventually sent her to a therapist, and she was able to manage her feelings of gender dysphoria. Erin is sharing her deeply personal story to help others understand the damage that is being done to our children by the transgender movement.

Erin grew up in Salt Lake City and earned a B.S. from Hampshire College in Amherst Massachusetts. She has a Doctorate in Instructional Technology and Learning Science from Utah State University.

Title: *I Was a "Trans" Kid*

Outline:

- What is gender dysphoria
- Causes of gender dysphoria
- My childhood gender dysphoria
- Trans activism
- Dangers of transitioning
- There is no such thing as a "trans" kid

Action Items:

- Contact federal legislatures to express opposition to the Equality Act
- Petition state legislators to ban medicalized transition services to children
- Oppose "conversion" therapy bans
- Contact local school districts and find out what kind of "sex positive" and "inclusive" your school districts support.
- Lobby school districts to oppose any policies that allow a child to self-ID
- Contact: The Children's Hospital of Los Angeles and tell them to stop supporting Dr. Olsen-Kennedy who is encouraging children as young as 8 years old to take cross-gender hormones and 13-year-old girls to have their breasts amputated

Children's Hospital Los Angeles
4650 Sunset Blvd.
Los Angeles, CA 90027
Phone: 323-660-2450

- Contact the National Institute of Health to express opposition to funding Dr. Olsen-Kennedy's research

National Institutes of Health (NIH)
9000 Rockville Pike
Bethesda, Maryland 20892
Phone: 301-496-4000
