

WHAT IS CRITICAL RACE THEORY?

- **CRT** is a racist belief system that divides Americans by skin color.
- **CRT** evolved from Marxist ideology that separates people into two groups. In this case, oppressors (whites) and oppressed (people of color).
- **CRT** is a billion dollar industry that has invaded corporate board rooms, human resources departments, government agencies and school curricula.

- **CRT** teaches white children that they are inherently racist by virtue of their skin color.
- **CRT** teaches black children they are not as capable as children of other races.

"Teaching kids to hate their country and hate each other isn't worth a dime of taxpayer money."

- Governor Ron DeSantis, Florida

- **CRT** goes hand in hand with "Action Civics". Action Civics is radical civics instruction that offers academic credit to students to lobby and protest for leftist ideologies.
- **CRT** like Common Core, has deceptive terminology to mislead parents and citizens. Examples include cultural competency, racial literacy, equity practices, diversity and anti-bias training, culturally responsive teaching, inclusion and social justice.

WHAT'S WRONG WITH CRITICAL RACE THEORY?

- **CRT** indoctrinates adults and vulnerable school children to view all social interactions through the lens of race.
- **CRT** violates the 14th Amendment to the U.S. Constitution and the Civil Rights Act of 1964.
- **CRT** rejects Martin Luther King's dream of judging fellow Americans by the content of their character instead of the color of their skin.
- **CRT** insults minorities by portraying them as eternally helpless victims.
- **CRT** "coaching and leadership development programs" waste taxpayer dollars. (For example, Loudoun County, Virginia taxpayers foot the bill at a rate of \$625/hour for teachers to learn how to brain wash their students.)
- **CRT** espouses a false narrative of systemic racism.
- **CRT** leads to self-censorship akin to the Chinese Cultural Revolution.

"I see it for what it is: a tacit admission that they don't think Black and Hispanic students have what it takes to compete on merit. That's not the message my parents gave me; it's not the message I share with my own children; and it's not a message we should be sending to other children just to salve our consciences."

- Mr. Harry Jackson
Thomas Jefferson HS, VA.

WHAT CAN YOU DO ABOUT IT?

- Join Eagle Forum and become part of an effective grassroots movement. Visit www.alabamaeagle.org
- Call or meet with your senators and representatives or their staff. Urge them to vote against "Civic Secures Democracy Act" (H.R.1814/S.879) and the "Civics Learning Act" (H.R.400) or any future bills that advance Critical Race Theory or Action Civics. For further information, visit Eagle Forum Focus on education.

"'Action Civics' is the greatest education battle of our lifetimes. This is no exaggeration as more details are coming out about proposed federal legislation that seeks to bring 'Action Civics' to a school near you. If these bills pass, the next generations of students will be lost to 'woke' politics and leftist activism. In fact, our children and grandchildren will receive course credit for taking to the streets."
