Prior to working in the political arena, he was an attorney in New England.

Title: *We Must Unite to Save Our Schools from the Left's Radical Agenda*

Outline:

- How we got here.
- Why we woke up.
- Early successes.
- The Empire Strikes Back.
- How to win the long game.

ACTION:

- Read [*Parents of the World Unite*](#) and share with others the book's philosophies, strategies, and tactics that are replicable.
- Fight yourself and activate parents - they are paying attention. The school board is more cautious, though, so be wise.
- Pay attention to funding streams
- To be successful: know what people are good at and enlist them to get involved in the fight.

- Find “missions” as opposed to “aspirations.”
- Have a leadership structure that people will listen to.
- Morph when you need to morph (keep mission current).
